Subject: Juneau Co

I need to Ex. 6 Personal Privacy (PP) now. I don't have the report from Erik so I can't forward to WDNR. Because of the early release Of employees, I don't know if it can get up in the web today.

Both DNR and David Crass should get courtesy copies. The form need to get set to R5websupport to get the document 508 compliant and put on the website, but **only after** the courtesy copies get sent.

I have my work phone with EC 500 activated.
